

ACCUMULATORS

CATEGORY

Isothermal packaging

Accumulators

DESCRIPTION

Our positive flexible accumulators consist of a non-toxic proprietary eutectic gel, packaged in a highly resistant aluminized flexible heat-sealed bag.

These accumulators extend the preservation of the cold chain for refrigerated products, and their non-toxic nature makes them suitable for use in the food industry.

The in-house manufacturing of these accumulators allows us to offer customization options for the film, quantity, and formats to best meet your needs.

FEATURES

- ✓ Isothermal
- ✓ 100% Recyclable

DETAILS

- Ideal for shipping goods from 2 to 8 kg. Positive C
- Cost-effective
- Variety of available formats.
- Customisation possible through printing and format, ranging from 150g to 1500g.
- Reusable
- Suitable for the food, biomedical, and pharmaceutical sectors, among others.
- Metalized complex bag, impact-resistant, etc.
- Ease of preconditioning.
- Excellent substitute for rigid accumulators.
- An essential complement for any isothermal packaging.
- Materials: PE complex bag + thermoset aluminum. Non-toxic eutectic gel formulation.

FORMAT

Model	Weight/unit (g)	Dimensions (mm)	Units/Box	Units/Palette
ACU200	200	170x120x30	40	2040
ACU250	250	170x125x30	40	2040
ACU400	400	170x145x30	25	1275
ACU600	600	170x195x30	20	1020
ACU1000	1000	170x250x30	12	504

- Colour: Aluminium + printing (Customisable printing for large orders).
- Delivery unit: Box measuring 390 x 285 x 160 mm.
- Eutectic point temperature: -5°C.
- Dynamic compression resistance 100 kg.
