Cardboard Boxes

DESCRIPTION

The Opening Wardrobe Box is a packaging system consisting of a corrugated cardboard box together with a ribbed plastic hanging bar for hanging garments.

At Font Packaging Group, we offer the option of using a side window or vertical window in your wardrobe box to meet the specific requirements of this type of packaging. This wardrobe box provides a high level of theft protection, as the box can be closed using several options: staples, sealing tape, gummed paper tape, etc., according to your needs.

The side tabs on the bar allow the box to be handled without the need for die-cutting or making any additional holes in the cardboard.

In addition, the quality of the cardboard box, made from Kraft papers, provides the highest resistance and puncture protection among the models available on the market.
