DESCRIPTION

We design and manufacture die-cut returnable packaging. The inclusion of two or more internal sealing strips allows the packaging to be reused in the event of a return.

With "rape tape" die-cutting systems, we facilitate the opening and usability of the boxes, eliminating the need for external adhesive tape.

By customizing this packaging, highly functional e-commerce packaging with strong branding potential can be achieved. The box is made from 100% recycled and recyclable paper, is highly resistant, and is ideal for shipping books, catalogs, clothing (such as T-shirts or trousers), samples, etc.

It is supplied flat, but is very easy to assemble thanks to the integrated adhesive strip.
