Packaging and Shipping

Cardboard Boxes

DESCRIPTION

Our cardboard boxes are specially designed for the safe transportation and storage of all types of bottles. Each box can include an integrated honeycomb divider that protects the bottles from impacts and sudden movements.

Thanks to the semi-automatic assembly option, assembly is quick and easy, enhancing efficiency in the logistics process.

Additionally, we offer the possibility of customizing the boxes with high-quality printing that highlights your brand image, or you can opt for our standard printing option to reduce costs.

FEATURES

- ✓ 100% Recyclable.

DESIGN

- We design boxes for bottles with internal protection systems to ensure that bottles reach their end consumers in perfect condition.
- Self-assembling formats.
- We combine materials such as paperboard, foam, and EPS to present the bottles in the best possible way.
- Own and patented models.
- Totalwinepack is our packaging system for the completely safe shipment of bottles.
- Totalwinepack reduces bottle breakage during transport by 98%.

IMAGE

- We adapt the product image to the bottle being packaged.
- Flexographic and offset finishes.
- Corrugated cardboard or paperboard grades according to the packaging requirements.
