Hazardous goods boxes

DESCRIPTION

At Font Packaging, we offer customised and certified ADR 4G packaging solutions to ensure safety in the transport of hazardous goods.

Our packaging consists of a certified cardboard box and an interior specifically designed for each type of product.

We handle the complete certification process so you don't have to worry about anything.

FEATURES

- ✓ ADR - Hazardous Goods
- ✓ 100% Recyclable
- ✓ Certified

DESIGN

- We design corrugated cardboard packaging systems for the transport of religious products.
- The packaging is designed according to the actual needs of each product, creating 4G and 4GV packaging.
- Our technical department, along with laboratories, conducts the necessary tests for the certification of the packaging.
- Certifications are carried out for land, air, and rail transport.
- We have standard certified packaging in stock.
- We manufacture the necessary interiors to meet the certification requirements.
- We collaborate with other packaging manufacturers to ensure our packaging meets the certification needs.

PRODUCTION

- We have the production capacity for short series to adapt to your needs.
- With the incorporation of products from our collaborators, we offer different customized solutions for each requirement.
- High-quality printing finish formats.
