Cardboard Pallets

DESCRIPTION

The CLICKpal is a sturdy pallet made from 100% corrugated cardboard.

ECO-FRIENDLY: 100% recyclable and environmentally friendly.

LIGHTWEIGHT: Can be transported by hand.

VERSATILE: Can be customised to any shape, size, and design.

DURABLE: Its reinforced structure makes it a highly resilient corrugated cardboard pallet.

The CLICKpal facilitates internal transport and handling both at the loading plant and during use by the recipient. The pallet has a lower load weight than wooden or plastic pallets, which helps save costs in logistics and storage. Thanks to its adjustable format in size and shape, it reduces the space it occupies in the warehouse. The CLICKpal is a patented model, customisable and made with solid blocks without gaps, making it more resistant to stacking and impacts from forklifts.

FEATURES

- ✓ Liderpack Award
- ✓ 100% Recyclable

CLICKPAL 1200X1000 - AC+A**CP1210ACAT**

- The surface of the pallet is made up of two formats of corrugated cardboard: 1200x1000 AC and another laminated format of 1000x1200 in wave A.
