

FAST BOX

CATEGORY

Large containers

Fast box

DESCRIPTION

The Fast Box is a corrugated cardboard container with a European pallet base (1200x800) and variable height.

Its main feature is the automatic bottom, which significantly reduces assembly time. This innovative design optimizes transport and minimizes the storage space required before use, making it the ideal choice.

Fast Box cardboard containers are available in a lid container format or containers with flaps. They are fully customizable, allowing for the addition of windows or other die-cuts according to specific needs.

FEATURES

- ☒ Self-assembling
- ☒ Heavy duty
- ☒ 100% Recyclable
- ☒ Quick assembly
