

RING AND LIDS KIT

CATEGORY

Large containers

Industrial packaging KITS

DESCRIPTION

This is a kit consisting of a base stapled to the pallet, a ring, and a lid, all manufactured according to your mechanical and logistical needs. In this case, depending on the stacking loads, the quality of cardboard we will use will be determined.

100% customizable and with the option to incorporate windows, it offers an unmatched quality-price ratio in the family of industrial packaging kits.

- The Ring+Lids kit consists of a pallet, a base stapled to the pallet, a folded ring, and a lid.
- A very versatile kit, we can manufacture multiple sizes for both the pallet base and height.
- They are fully customizable in printing or cardboard qualities.
- All kit components are delivered inside the folded pallet.
- They are presented folded, thus optimizing transport and storage logistics costs.
- Assembly is ultra-fast, and a single person can do it in a few seconds.
