

Large containers 

CONSUMER OCTABIN

CATEGORY

Large containers

Octabin for solids

DESCRIPTION

This eight-sided cardboard packaging system is ideal for packaging any bulk product: granules, preforms, caps, meat products...

These containers feature a self-assembling lid system, which maximizes ease of use and assembly.

Additionally, they can be manufactured in any quality of cardboard, increasing the packaging's strength to over 1000 kg if necessary.

Ideal for food and chemical companies that use it for the transport and storage of large volumes, both in refrigerated chambers and conventional transport.

FEATURES

- ☒ 100% Recyclable
- ☒ Heavy duty
- ☒ Bulk products
