

Large containers 

OCTABIN FOR CABLES

CATEGORY

Large containers

Octabin for solids

DESCRIPTION

The Octabins for cables are characterized by having a central core where different formats of cable can be wound.

We manufacture these containers entirely from corrugated cardboard, and we adapt the dimensions to the mechanical and visual needs of these.

We can customize the container with your branding to assist you in your brand creation.

FEATURES

- ☒ 100% Recyclable
- ☒ Heavy duty

DESIGN

- Packaging made up of two bodies, one inner and one outer, in the form of a horizontal reel for the proper winding of the material.
- The 8 faces of the inner and outer bodies provide great resistance to stacking.
- Suitable for use with all types of materials, metal, plastic, rubber, etc.
- Incorporates filling measurement holes in the box to determine how much material remains in the container.
- The lower tabs of the lids allow for automatic winding and unwinding to improve work efficiency.

PRODUCTION

- The manufacturing of these octabins is done entirely to order, allowing you to print the image you desire on the containers.
- We select the quality of the cardboard in each case according to the mechanical needs of your products.
- Closure systems include tails, tapping, or staples.

STANDARD MEASURES

Art.	Measurements
22619009/01	800x800x1270
95993011/00C	920x902x1300
14727001/00C	1060x1060x1330
01539001/01	110x11000x1300
31063001/01	1100x1100x1500
95993012/01	1100x1100x1800
22619009/01	1120x1120x1200

- The heights of all measurements can be modified.
