

Large containers 

OCTABIN FOR GRANULES

CATEGORY

Large containers

Octabin for solids

DESCRIPTION

Granules are one of the most technically complex products to package.

The mechanical requirements that the packaging must meet for both expansion and stacking, along with the loading and unloading needs of the product, dictate the design of the packaging.

With over 20 years of experience manufacturing octagonal containers for granules, we assure you that we can meet all these needs.

FEATURES

- ☒ 100% Recyclable
- ☒ Heavy duty
- ☒ Bulk materials

DESIGN

- The container for granules consists of two lids and a corrugated cardboard ring.
- We place reinforcement tapes at the bottom if necessary.
- An additional strap can be incorporated to increase the height of the container, making it telescopic.
- We can manufacture the containers in different qualities and sizes.
- It is suitable for all types of granules.
- It can include bottom discharge hatches along with the pallet.
- It is a 100% customizable, recyclable, and biodegradable product.

ADVANTAGES

- The container is presented folded, reducing storage space.
- It is suitable for export without the need for treatments.
- Closure systems include tail, tapping, or staples.
- A versatile system that adapts to the mechanical needs of the product.

STANDARD MEASUREMENTS

Art.	Measurements	Filling level
22619009/00C	800x800x1270	Yes
95993020/00C	900x900x1300	Yes
96993022/00C	900x900x1400	No
14727001/00C	1060x1060x1330	No
45020016/00C	1100x1100x1200	No
01539001/00C	1100x1100x1300	Yes
32063001/01	1100x1100x1500	Yes
45020019/00C	1100x1100x1700	Yes

- The heights of all measurements can be modified.
